

JESSA V. CARIÑAGA

Sta. Rosa City, Laguna, Philippines | +63 981 2099 977 | carinagajessa18@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented and highly adaptable Information Technology graduate with hands-on experience managing digital systems, data encoding, and full-stack web applications. Proven track record of handling high-volume documentation, optimizing database records, and ensuring strict data integrity with zero entry errors under tight corporate deadlines. Equipped with strong technical proficiency, advanced computer literacy, and a collaborative mindset, making me highly effective in both administrative/data encoder roles and technical IT operations.

TECHNICAL SKILLS

Front-end:	HTML5, CSS, JavaScript, React.js, Vue.js, Bootstrap
Back-end:	PHP, Node.js, Express.js
Database:	MySQL, MongoDB
Web Development:	Responsive Design, CRUD Operations, REST API Integration
Tools & Platforms:	Git, GitHub, VS Code, XAMPP, Postman, phpMyAdmin, Microsoft Office
UI/UX Design:	Figma, Canva

EDUCATION

Bachelor of Science in Information Technology

University of Cabuyao | Cabuyao, Laguna | 2026

EXPERIENCE

IT Intern - Web Developer | Nidec Philippines Corporation | February 2026 – May 2026

- Developed and deployed a full-stack Internal Auditing Management System featuring role-based authentication, audit assessments, auditor review workflows, report generation, and audit archiving for auditors and auditees.
- Built and enhanced key system functionalities including self-assessment dashboards with compliance analytics, PDF/Excel report generation, audit tracking, checklist management, and user permission controls.
- Designed and optimized a MySQL database supporting 160+ audit checksheets and complex audit data relationships, while contributing to frontend and backend enhancements that enabled successful production deployment within a 3-month internship.

Data Encoder | Barangay Health Center | April 2025

- Encoded medicine inventories and resident requests directly into the Health Center's internal Inventory Management system.
- Ensured strict data integrity by updating digital tracking records promptly and minimizing entry errors.
- Maintained high data accuracy within the system to ensure correct stock counts and fast record retrieval.

Clerk Assistant | Barangay Health Center | May 2023

- Encoded resident information and processed intake data securely to verify details for official document and clearance requests.
- Utilized Microsoft Word and office tools to input sensitive personal details into standardized document templates accurately.
- Managed the printing, verification, and releasing workflows to ensure high-volume document processing with zero entry errors.

PROJECTS

Internal Audit Insights Module System (I-AIMS) | Internship

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

- Designed and developed a full-stack web application to manage internal audit processes and employee compliance tracking within the organization.
- Implemented role-based access control for auditors and auditees, supporting self-assessments, audit reviews, and compliance evaluation workflows.
- Developed CRUD operations for audit clauses, requirements, and auditor management, ensuring efficient administration and maintenance of audit data.
- Integrated PDF/Excel report generation and an audit archive system with fiscal year and audit cycle filtering for streamlined reporting and record retrieval.

Envirocool Delivery Tracking System with Data Analytics | Thesis

React, Bootstrap, PHP, MySQL

- Developed a full-stack delivery tracking system with role-based access for administrators, operational managers, drivers, and customers, streamlining order processing and delivery management.
- Implemented key functionalities including payment tracking, receipt generation, delivery scheduling, vehicle and driver assignment, proof-of-delivery submission, and customer feedback collection.
- Integrated GPS tracking and SMS API notifications for real-time delivery monitoring and built analytics and reporting modules with filtering and PDF export capabilities and service quality evaluation.
